

INDUSTRIAL CELLULAR UNIT

Stay in constant communication with your active bulk tanks.

Commercial businesses, large farms, and larger homes difficult to schedule efficient deliveries or removals due to unpredictable and uncontrollable variables. The WESROC Industrial Cellular Tank Monitor enables you to track the levels of these active tanks

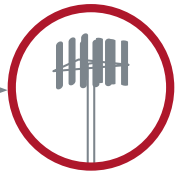

from your office headquarters or mobile device, and schedule efficient deliveries or removals accordingly. WESROC enables businesses to avoid run-outs and overflows while maintaining maximum delivery efficiency.

MONITOR

Monitor checks the tank conditions every minute. Report time and frequency can be set as needed.

COMMUNICATION

Reports and alerts are communicated via cellular network and the internet.

WESROC.NET

Seamlessly integrates with your existing monitor reports and back office software. Report frequency and alerts are configurable to your liking.

DELIVERY

Efficient delivery is scheduled.

Industrial Cellular Tank Monitor

TOP TAKEAWAY POINTS

- Protection against run-outs and overflows
- Instant access to tank level status, history and more
- Communicates using cellular network
- Five year warranty
- Five year battery life
- Above ground and underground tanks supported

PRODUCT NUMBER

MT-9103CTMV-AG5-76-100-656

MT-9103CTMV-UG5-76-100-659

(For Underground Tanks)

DIMENSIONS

Size: 5.6" long x 5.3" wide x 7.6" tall

Weight: 1.5 lbs.

FEATURES

- Over five year battery life with daily reporting
- Low monthly reporting costs
- Operating temperature range of -40C to +60C (-40F to + 140F)
- Compatible with all Rochester R3D small tank dials.
- Configurable dial scaling for horizontal, vertical, fuel oils, etc.
- Safe, field replaceable, waterproof battery package

REPORTING FEATURES

- Checks tank status every minute for instant event reporting
- Adjustable scheduling of report intervals
- Configurable warning and critical alarm thresholds for low or high tank levels
- Level, fill event, draw rate, and manually triggered reports
- Ambient temperature
- Battery status
- Cellular signal strength indication
- All fills are time stamped and reported immediately

APPLICATIONS

Propane

Fuel Oil

Gas

Diesel

Bulk Storage

Waste Fluids

Water
